

MedStartup Exchange - Opening Kickoff Agenda

Thursday, May 14 | 8:30 PM - 9:30 PM IST | Duration: 60 minutes

Thank you again for the enthusiastic response and for completing the pre-kickoff survey. The survey shows broad support for the proposed mission and vision, with weekday evening emerging as the most preferred meeting pattern. Since we have only one hour and several items to close, most of the work will be done as pre-work. The meeting will be discussion-light, poll-driven, and will close sharply at 60 minutes.

Meeting Goals

#	Outcome to close
1	Close a working draft of the Mission and Vision
2	Close the top Guiding Principles for the initiative
3	Agree the agenda and structure for the follow-up working meeting

Proposed Flow

Time	Discussion item
5 min	Thank-you note, quick survey summary, and chat introductions Share key survey patterns and confirm why the selected meeting time was chosen. To save time, participants can drop 1-2 sentences about themselves in the chat; no verbal introductions unless needed.
20 min	Task 1: Mission and Vision Start from the revised draft prepared from survey feedback. Since the majority already broadly agreed, discuss briefly, make only minor real-time edits if needed, then run a quick poll. If at least 70% approve, it is adopted as the working draft.
20 min	Task 2: Guiding Principles Briefly clarify what each proposed principle means, shortlist five core guiding principles, and run a quick poll. If at least 70% approve, they are adopted as the initial working principles.
15 min	Task 3: Follow-up structure and workstreams Discuss creating two initial workstreams: (a) Operating Model and (b) Platform Workflow. Everyone may participate, but each workstream should have a few accountable members to drive progress.

Meeting Norms and Guardrails

Please keep comments short and focused. Use chat for detailed thoughts. Different viewpoints are welcome, but the meeting will not become a live wordsmithing or open-ended brainstorming session. Please avoid patient-identifiable information, confidential institutional details, personal blame, or complaint-box discussion.
